# Smarter Healthcare, Lower Costs

## Your Health Plan's Key to Better Care at **No Cost to You**

Transperra is a program that works alongside your health plan to help you get the best care for the lowest possible cost – and often at no cost to you.

It's an innovative way to make healthcare more affordable, more efficient, and more predictable, while improving the quality of your care. By partnering with you and your health plan, Transperra helps navigate you to the right care, at the right place, at the right time.

## How Does **Transperra Work?**

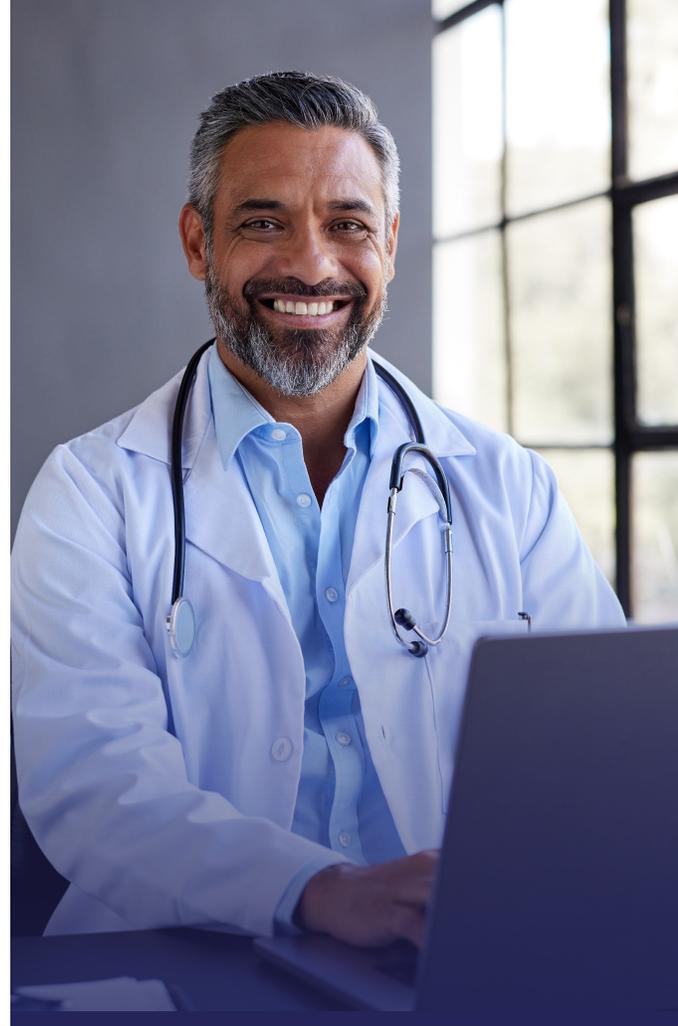

Transperra partners with your medical plan to identify higher quality, lower cost options for your care. This includes:

- Choosing better, more cost-effective facilities
- Finding medications that are the same as what you're taking – same manufacturer, same drug – just more affordable
- Helping you choose the right site of care (e.g., urgent care vs. emergency room)

---

### By engaging with Transperra, you get:

- Better care outcomes at lower costs
- Zero out-of-pocket costs when you follow the recommendations of the Transperra program

## The Power of **Transperra** at Your Fingertips

Whether you're planning a procedure, filling a prescription, or seeking care, Transperra is here to make it easier. Through simple navigation tools (like our app, website, or call center), you'll be guided to the most cost-effective, high-quality options available to you.
